	POSITION TO DATE																						

4 race days=1 throwout
7 race days=2 throwouts

Note 1	Finishes on race days with two or more races are averaged for a single race day score.
Note 2	Boats that are DNC will get 2 points more than the boats that came to the starting area.
Note 3	Boats that are DNF, DNS, RET, DSQ, OCS, NSC, etc. will get 1 point more than the boats that came to the starting area.
Note 4	Boats that register later during series will have their scores updated to reflect the DNC in races prior to registering.
Note 5	Skippers who assist the RC in running races will receive points based on the average of their previous race days (only days actually raced but no worse than DNC for that day.
Note 6	PTS are for the days racing and are used to set the Standings. PL are the places for the days racing but only used to break ties in total points. For instance, a tie is broken by who had the most firsts, then seconds, etc.. If still tied, who beat whom in the last race day.
